With all of the economic and financial uncertainty today, it is unclear what the future will bring. Ensure that the money you are setting away for the future retains its purchasing power and consider diversifying your portfolio with precious metals. Store and save your purchasing power in physical assets.

An IRA is an ideal place to store your physical precious metals, like gold and silver.

What Is a Precious Metals IRA?

A Precious Metals IRA is similar to a traditional IRA. However, as the name suggests, a Precious Metals IRA allows for physical gold, silver, platinum, or palladium to be held in a tax deferred retirement account under your name. Much like a 401k, 403b, or IRA; your assets are overseen by a third party custodian. Furthermore, most types of retirement accounts can be rolled over into a Precious Metals IRA without incurring taxes at the time of transfer. Adding physical metals to your retirement plan is a very simple process.

How Does It Work?

It is a quick and simple process to open up or rollover to a Precious Metals IRA. Lear Capital™ has many clients with gold and silver in their IRAs. Now it’s your turn!

It’s as easy as 1, 2, 3!

1 OPEN ACCOUNT
We will send you an application via email, fax, or mail. Simply confirm the prefilled information, designate your beneficiaries, and authorize.

2 TRANSFER FUNDS
After opening your account, it will need to be funded. We work directly with your current retirement plan custodian to transfer funds to your new Precious Metals IRA.

3 SELECT METALS
Select the metals you want to add to your account and we will ship the precious metals to the depository where your account is private, safe, and secure.

Call us now to get started: 1-800-576-9355

Once your account is funded, you can track the value of your holdings using our online access 24/7 or view them in the quarterly statements sent directly to you. Your dedicated account representative is also available to answer any questions.
What Are the Benefits of Opening a Precious Metals IRA?

Protection
Physical metals can offer an additional layer of protection, helping to maintain the value of your hard-earned dollars. This is achieved in two ways:

Diversification - A gold, silver, platinum, or palladium-backed IRA allows you to hold a portion of your retirement savings in a market outside of stocks. Doing so guards those dollars against volatility in the stock market. While a mutual fund may contain a variety of stocks, they are not immune to market crashes. However, by engaging in other markets—like the precious metals market—your holdings are further diversified and can help reduce your overall exposure to risk.

Hedging - As the national debt exceeds the $18 trillion mark and as the dollar's buying power continues to dwindle, savvy investors are turning to an investment that reacts inversely to these unfavorable economic conditions: gold! Gold has a centuries-long history of maintained purchasing power. More recently, gold has tracked the national debt with surprising accuracy. In short, it's an ideal vehicle for principal preservation in these uncertain economic and political times.

More Distribution Options
When it's time to withdraw from your retirement accounts, a Precious Metals IRA offers an option that traditional IRAs cannot: to take physical possession of your metals and potentially to continue to benefit from the growth of your assets. Taking possession of your metals qualifies as a mandatory distribution. However, it's not your only recourse. If you so choose, Precious Metals IRAs can also be quickly liquidated.

Tax Deferred Rollover
Rolling over into a Gold or Silver IRA does not result in any immediate tax obligations. It's simply a lateral transfer from one asset class to another and from one custodian to another.

Easy to Do
Opening a Precious Metals IRA with Lear Capital™ is a simple, three step process. Our dedicated IRA department is experienced, diligent, and dedicated to making the transfer as quick and convenient as possible. All you have to do is fill out the application and decide on the amount to invest. We do the rest!

Choose From Two Great Offers:

$500 Bonus:
Qualifying IRA accounts are eligible for up to $500 cash back.*

30-Day Price Guarantee:
Get 30 days of price protection when you open a new IRA.*

Lear Capital, Inc. (LCI) is a seller and purchaser of precious metals. LCI is not a broker/dealer. No broker/client or fiduciary relationship exists between LCI and its customers, and LCI does not warrant that the precious metals it sells are fit for any particular purpose. LCI may, and usually does, make a profit on the precious metals it sells to customers. LCI’s sales representatives are commissioned salespersons, i.e., their salary is based, at least in part, on the amount and profit margin of the precious metals they sell. Semi-numismatic and numismatic precious metals almost always carry a higher profit margin than bullion. The statements made in this brochure are opinions, not facts, and past performance is no indication of future performance or returns. Precious metals, like all investments, carry capital risk. Precious metals may appreciate, depreciate, or stay the same depending on a variety of factors. LCI cannot guarantee, and makes no representation, that any precious metals purchased will appreciate at all or appreciate sufficiently to make customers a profit. The decision to purchase or sell precious metals, and which precious metals to purchase or sell, are the customer’s decision alone, and purchases and sales should be made subject to the customer’s own research, prudence, and judgment. In LCI’s opinion, (i) precious metals should be considered a long-term investment (i.e., 3 to 5 years or more), and (ii) customers should not invest more than twenty percent (20%) of their available investment funds in precious metals. However, a customer’s individual circumstances may warrant a different approach. Precious metals do not yield income and thus are not an appropriate investment vehicle for investors seeking current or future income. LCI does not provide tax, investment, or legal advice or advisory services, and no one associated with LCI is authorized to provide any such advice or services. LCI makes no representations regarding the tax consequences of holding precious metals as an investment in an IRA or other retirement account. Customers considering whether to include precious metals in an IRA or other retirement account should seek independent tax advice from a qualified professional regarding the tax consequences of such an investment.
